

REMARKS

A replacement drawing sheet is submitted herewith as required.

The title and the specification have been amended as suggested by the Examiner.

The allowance of claims 28, 29 and 31 is acknowledged and appreciated.

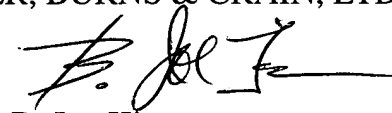

Claims 22-27, 30 and 32-35 stand rejected under 35 U.S.C. § 112, second paragraph, as being indefinite. Claims 22, 23, 30, 32 and 33 have been amended in a readily apparent manner to overcome this rejection. Among other things, the claims now more clearly describe that the different operating voltages are with respect to at least two element groups of CMOS transistors.

In view of the above amendments to the claims, the present application is now believed to be in condition for allowance, which is respectfully requested. The Examiner should contact Applicants' undersigned attorney if a telephone conference would expedite prosecution.

Respectfully submitted,

GREER, BURNS & CRAIN, LTD.
